

GOING BACKWARDS UNDER BAILLIEU!

Join the Backwards March at:

PARLIAMENT HOUSE, Sunday 13 Nov, 1-2.30pm

In just one year Premier Baillieu has taken Victoria decades backwards on the environment:

- Cattle trampling national parks
- New wind farms blocked
- CO₂ emissions target ignored
- Endangered species habitat logged
- New coal-fired power station approved
- Green Wedges threatened
- Westernport destruction fast-tracked

Organised by:

Join the Backwards March and call on the Premier to stop taking Victoria backwards!

GOING BACKWARDS UNDER BAILLIEU!

Join the Backwards March:

When: 1-2.30pm Sunday, November 13

Where: Parliament House, Spring St City

Premier Baillieu said he would 'fix the problems, and build the future', but when it comes to our environment his government has created new problems and is threatening our future!

His government has no formal environment or climate change policy, and no clear vision for a more sustainable Victoria.

So after 12 disappointing months we're marching backwards to demonstrate the direction the Premier is taking us.

**JOIN HUNDREDS OF OTHER CONCERNED
VICTORIANS TO TURN THINGS AROUND
FOR OUR ENVIRONMENT AND ASK:
WHERE IS YOUR PLAN PREMIER?**
